Claims 8,10,15 and 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 8,10,15, and 17 recite the limitation "analgesic agents" in line 1 of each of the above claims

. There is insufficient antecedent basis for this limitation in the claim.

The independent claims recite the method for treating pain. Accordingly claims 8,10,15, and 17 reciting analgesic agents will be treated as compounds and no patentable weight is being given the method of use.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 8,10,15, and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Weber, E. et al JACS (1989) 111(20) 7866-72 or Bolt, J. et al Tetrahedron Letters (1976)30 2595-8

Both references teach the claimed compounds.

Claims 6,7,9,11-14, 16, 18, and 19, directed to method of use would be allowable if presented in independent form
